ABOUT ME

Welcome, my name is Jonathan Woen, and I am excited to have an opportunity to share my story and to show my projects. I have a Mobile Development background as my university major and also a member of the design team of an university committee organization. I am very passionate in learning UI/UX Design and is willing to learn more. Outside of university life, I enjoy playing guitar, gaming, and listening to music.

SKILLS

Adobe
Figma

Artwork / Project Description

In this project, I developed a functional application to create a shop system using Java in Android Studio. The application features a user-friendly interface that allows the user to browse products, and add them to a cart. It also has a page about the company background.
